

# Zugspitze

From the high mountains of Germany comes Nordic and folksy mixed prints and patterns. Sweaters capture this look best in Fair Isle styles, as well as mixed patterns that come together in complementary rustic hues. Layer knit prints over woven prints.

Winter wool tweeds, suiting, and velvet make way on pants and range from slim or relaxed to equestrian-like volume. Geometric opticals on the face of wovens resemble brocades in monochromatic dusty color schemes. Outerwear is key—think taped jacket and double-breasted pea coat.

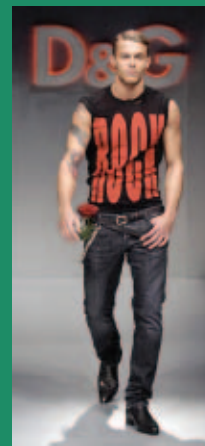

# Mittelerde

YOUNG MEN

# Fall '06-'07

Clean styling paired with retro themes.

Think skinny black or resin finish jeans, biker chains, and belts. Bold screen prints layered on Ts or placed on a woven. Leather biker jackets top off this look.

# Glam Rock

# Return of the Nerd

Argyle sweaters are new with fun patterns and punchy colors. Taping on pants gets creative in innovative zigzag patterns. Logos appear on khakis. Pair just the right amount of nerd with cool, such as a strict suit jacket and vest with denim.

## Pop Culture

Suit styles stick to traditional black and gray but get a hip update with the addition of red and electric blue by way of jacket or tie. Pinstripes on jackets and skinny ties stand out.

## Retro Revival

Plaids, stripes, and checks are combined in an unexpected yet hip way. Tweed bottoms feature zipper or taping details. Check wovens topped with plaid jackets or vests. Woodsy tones stand out with burgundy and gold accents.
