

Clean and themed—
travel from Hawaii
to the frontier.

Ethnicity

An air of Moroccan and Middle Eastern flavor: tunic tops in all-over prints, border prints, or scattered metallic embroidery. Apply this theme to knits with ethnic appliques in shades of brown. A denim-friendly trend, particularly classic relaxed fits and stone washes.

809ids

YOUNG MEN

Subtle screens of hula girls and hibiscus floral embroideries are musts for Ts. Tropic flavor also makes its way to jeans as a notable appliqué. Work with punchy brights such as green, orange, and blue.

Salute to Hawaii

Alfie

Think super skinny pants paired with artsy wovens and lean *Miami Vice* jackets. Retro graphics are key on bright punchy wovens. Colorful ties and pins hint at rebellion. Use hues such as teal and golden yellow with classic gray and bright white suiting.

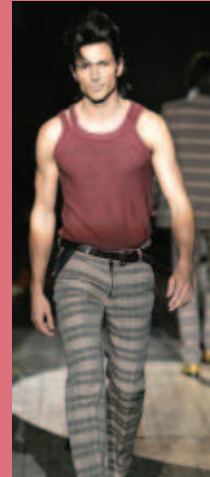

Think signature Western shirts and separates. Jackets and vests treated in leather and suede. Beading and embroidery over contrast yoke shirts and fringe on outerwear. Pay attention to braided taping and unfinished hem detail.

Cowboys & Indians

Between a Rock and a Hard Place

Dirty vintage washes are key for rugged jean looks, cutoff jackets, and vests. Grayscale printed T's with macho phrases and graphics.

Clean &

White and natural tones work with hints of blue and red. Pants and jackets are detail free. Key pieces include contrast-color polos and striped knit tops. Small adjustments such as button belt loops are of note.

Casual
